PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 18th April 1914.

READ—

Letter No. 10763, dated 26th February 1914, from the Revenue Commissioner in Mysore, forwarding six statements showing the demand, collection and balance under Land Revenue (proper), Casual Land Revenue, Miscellaneous Revenue, Forest, Mohatarfa and Salt for the month of October 1913, together with a copy of his review thereon.

No. R. 8202-10—L. R. 11-13-66, DATED BANGALORE, 18TH APRIL 1914.

ORDER THEREON.—Recorded.

2. Under almost every head of revenue collections during the month are poor. The Hassan District shows the heaviest outstandings under "Land Revenue." The Deputy Commissioner is requested to take vigorous action for the prompt recovery of the arrears and explain the reasons for the unsatisfactory state of the collections.

3. In the statement relating to miscellaneous revenue in the Mysore District, the arrears at the beginning of the month, the total demand and the balance at the close thereof should have been given in addition to the collections during the month. The omission should have been explained.

4. The returns have been received long after the due date. The Revenue Commissioner is requested to see that such delays are avoided in future.

Government Order No. 6761-70—L. R. 430-13-2, dated the 25th March 1913, sanctioning an allotment of Rs. 10,000 for each district for giving grants-in-aid of village improvement works and empowering Amildars to sanction the grants up to a limit of Rs. 50; the Sub-Division Officers, from Rs. 50 up to Rs. 200 and the Deputy Commissioners, from Rs. 200 up to Rs. 500.

2. Letter No. 771, dated the 21st March 1914, from the Deputy Commissioner, Bangalore District, requesting instructions as to the procedure to be adopted for drawing the amount allotted for each district.

No. R. 8271-80—L. R. 430-13-8, DATED BANGALORE, 21ST APRIL 1914.

ORDER THEREON.—The amounts of grants-in-aid should be drawn on bills signed or countersigned by the officers competent to sanction such grants and supported by a credit certificate of the contribution received from the raiyats. At the end of each month the total amount actually paid to the village committees in each district will be calculated and treated in the accounts as contribution from Provincial funds towards village improvements and not to the District Funds or any other Local Funds in particular. If necessary a separate head may be provided in the accounts for the purpose.

2. With a view to provide for the effective check and supervision by the Amildar and other revenue officers over the expenditure of the amounts sanctioned as grants-in-aid, Government are pleased to direct that a register in the form appended to this order be maintained in each taluk and that the Amildar and other superior revenue officers should scrutinize the Registers and see that the amounts sanctioned as grants-in-aid are properly utilized.

(1) Government Order No. R. 2617-8—L. R. 413-10-6, dated the 14th November 1912, requesting the Revenue Commissioner to submit, in consultation with the Deputy Commissioners and the Chief Engineer, detailed proposals for strengthening the Maramat Establishment in the districts.

(2) Letter No. 206, dated the 7th July 1913, from the Revenue Commissioner in Mysore, submitting the proposals formulated by the Chief Engineer and stating that he agrees to those proposals.

No. R. 8464-74—L. R. 193-13-2, DATED BANGALORE, 28TH APRIL 1914.

ORDER THEREON.—After a careful consideration of the question in further consultation with the Revenue Commissioner and the Chief Engineer, Government are pleased to direct that the Maramat Establishment under the Deputy Commissioners be revised as follows :—

Executive Staff.

(i) In the place of the present District Overseers there will be attached to each district, a Public Works Department Officer not lower in grade than a Sub-Assistant Engineer or a Supervisor with a local allowance of Rs. 40 per month.

(ii) There will be 28 Sub-Overseers on Rs. 30 plus a horse allowance of Rs. 15 each for the 26 Revenue Sub-Divisions, and the number allotted to the various districts will be as noted in the margin. The distribution of the Sub-Overseers by taluks in each district will be made by the Revenue Commissioner in consultation with the Deputy Commissioners concerned, and reported for the approval of Government.

(iii) The existing scale of Tank Inspectors will be continued; but the present men will be gradually replaced by candidates who have passed the requisite tests from the Mysore Engineering School or other recognized institutions. The Tank Inspectors will be placed in 2 classes carrying a pay of Rs. 20 and Rs. 25, respectively, with a horse allowance of Rs. 10 per mensem.

Office and Menial Establishment.

(i) The Maramat Establishment in each District Office will consist of a Head Clerk on Rs. 35, an Assistant Clerk on Rs. 25, a qualified Draftsman on Rs. 30 and a peon on Rs. 7 per mensem.

(ii) Each Sub-Overseer will be provided with a clerk on Rs. 15—1—20 and a peon on Rs. 7 per mensem.

2. The financial effect of the revision, as now sanctioned, will be a net increase of Rs. 42,312 per annum in the charges of District Maramat Establishment as shown in the appended statement. Arrangements may be made to provide all the establishment before 1st July 1914.

3. The Engineer Officer who will be selected and posted by the Chief Engineer with the approval of Government, will be the Technical Assistant to the Deputy Commissioner and will be directly subordinate to him in all matters. The Maramat Establishment in the District Office will work under his immediate control and he will also supervise the work of the Sub-Overseers and the Tank Inspectors.

The Sub-Overseers will work in direct subordination to the Assistant Commissioner in charge of the taluks assigned to them. They will, however, be subject to the control of the Engineer Officer in all professional and technical matters, but all orders issued to them by the Engineer Officer will ordinarily be communicated through the Assistant Commissioner.

The Tank Inspectors will continue to work under the Amildar or the Deputy Amildar as heretofore, subject to the professional supervision of the Sub-Overseer in charge of the Division and the Engineer Officer. All orders in the Maramat Department will be communicated to the Tank Inspector through the Amildar or Deputy Amildar.

4. Both the executive and clerical Maramat staff, appointed in connection with the Minor Tanks Restoration Scheme, will form part of the Public Works Establishment. The Executive staff of Sub-Overseers and Tank Inspectors will be appointed by the Chief Engineer and the clerical staff by the Chief Engineer on the recommendation of and in consultation with the Deputy Commissioner. As regards the clerical staff, preference should be given to men who have served as Assistant Accountants in Public Works Divisions or as Accounts clerks in the Public Works Branch of the Comptroller's office.

5. The Engineer Officer and the Sub-Overseer will be primarily employed on Maramat work. They will also be expected to help private individuals in preparing estimates for tanks, which they may undertake to repair, and give them such professional advice as may be necessary in executing the work.

6. With the special permission of Government, the District Maramat Establishment may be employed on any specific Municipal, District Fund, Muzrai or other works, if this can be done without prejudice to their legitimate duties in the Maramat Department; and when they are so employed, the proportionate establishment charges on such works at the usual prescribed rates will be adjusted by debit to the departments concerned and credit to the Public Works Department.

7. The programme of work to be entrusted to the agency of the Maramat Establishment will include the following items:—

(1) Supervision of the maintenance of restored minor tanks by the people.

(2) Construction of new minor tanks or the restoration of minor tanks in disrepair.

(3) Encouragement of or creation of facilities for the construction of new tanks or restoration of disused ones by private individuals or local bodies.

8. To carry out the work of minor tanks restoration in a systematic way and on some recognized method, the Deputy Commissioner, the Executive Engineer, the Revenue Sub-Division Officers and the Amildars and Deputy Amildars in the district should meet three months before the commencement of the year and settle what tanks in each taluk should be taken up for restoration in the coming year. After the programme of restoration is settled and works are started, a report of progress made in each quarter should be obtained from the Amildars and Deputy Amildars and reviewed at a meeting of the Deputy Commissioner, Executive Engineer and Sub-Divisional Assistant Commissioner and a copy of the proceedings submitted to Government. This is necessary to see how far the settled programme is being worked up to and to ensure that mistakes, if any, committed during one quarter, are not repeated in the next or a subsequent one.

9. The Executive Engineers will render the Deputy Commissioners such help as they may require in supervising the work of the Maramat staff under them and in giving them professional advice in all matters of importance. The Superintending Engineers, will, in the course of their tours, check the work of the Engineer Officers and the Maramat Establishment and communicate the result to the Deputy Commissioners for necessary action.

10. Government consider that the permanent effective supervision of the repairs to and maintenance of minor tanks can only be insured by enlisting local effort and enterprise in that behalf. Considering the large number of such tanks in existence and that many are situate in rural areas, difficult of access, it will not be possible for any Government agency, however large, to maintain them without material assistance from the cultivators immediately interested in their upkeep.

Land Revenue, dated 28th April 1914.

It has been brought to the notice of Government that many villagers interested in tanks are willing to restore or repair tanks at their own cost on receipt of professional help and money contribution or promise of remission of wet assessment for a reasonable term of years. In order to stimulate private enterprise effectively in this direction, it may not be desirable to have any very rigid rules as regards concessions. It would also be necessary to prepare estimates of the works to be done for private individuals and to mark out for them the correct levels and dimensions of the work to be executed. The estimate of the cost will also give an idea of the nature and extent of the concessions to be granted. The Deputy Commissioners of Districts are requested to cause a systematic investigation to be made through their Sub-Division Officers as to the special facilities needed to induce the people to come forward to take up the construction and repair of minor tanks.

Proposals for the restoration of tanks by the villagers or cultivators concerned may be submitted for sanction one by one together with a statement of the concessions recommended in each case.

11. Government are prepared to sanction some temporary establishment, both Public Works and Revenue, if necessary, where either on account of the large number of cases to be investigated or owing to the need for special effort to bring into existence local enterprise and responsibility for the upkeep of tanks, such assistance is considered necessary.

12. One of the principal causes for complaints regarding insufficiency of water from existing tanks is that there are no rules for the economical distribution of water. The Revenue Commissioner is requested to take the necessary steps to assist the cultivators both in framing such rules and in enforcing them.

13. Government have, in their Order of the 14th November 1912, raised the allotment for the restoration of minor tanks to 2 lakhs for the next three years and they are willing to increase it still further, if local co-operation is enlisted and the raiyats come forward with their own money or labour for carrying out such works on a large scale. They trust that with the improved scale of establishment now sanctioned, the allotment for each district will be fully and judiciously utilised and that a rapid advance will be made in the important work of the restoration of minor tanks which, in the opinion of Government, is of vital importance to the prosperity and well being of the raiyats.

14. The scheme will be tentative for a period of three years and will be brought into effect from 1st July 1914.

ACCOMPANIMENT.

Letter No. 10509—S. dated Bangalore, 19th February 1914, from K. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments, Bangalore.

I have the honor to submit herewith Comptroller's letter No. 4015—T. A. D. II. 613, dated 22nd—31st December 1913, reporting on the working of the Treasuries in the State during the year 1912-13 and to state as follows:—

(2) From the statements accompanying the Comptroller's report, it will be seen that the bimonthly lists of payments and the cash accounts were submitted by the several Treasuries, except Mysore, more promptly than in the year 1911-12. A similar improvement is not noticeable in the submission of the vouchers and subsidiary statements or in the submission of the annual returns. The attention of the Deputy Commissioners will be invited again to the necessity for a strict observance of the rules prescribed for the preparation and submission of these accounts.

(3) On comparing the list of overdue vouchers for the year under report, with that for the previous year, it is found that except in the Mysore District, the pending vouchers have in most cases been forwarded and that a real attempt has been made to minimise the delay which was noticeable almost every year in the past.

(4) On the whole there has been a perceptible improvement in the working of the Treasuries.

ENCLOSURE.

Letter No. 4015—T. A. D. II. 613, dated Bangalore, the 22nd—31st December 1913, from J. S. Chakravarti, Esq., M.A., F.R.A.S., etc., Comptroller to the Government of His Highness the Maharaja of Mysore, to K. S. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, Bangalore.

I have the honor to forward herewith my review on the working of the Treasuries in the State for the year ending 30th June 1913, with the statements usually appended to it for being submitted to Government with your report.

Land Revenue, dated 27th April 1914.

(1) *Lists of Payments and Cash Accounts. Statement A, Column 3, Statement B, Column 3 and Statement C.*—In point of punctuality the Hassan District Treasury has maintained its position this year also, the two Lists of Payments and the Cash Account having been received from this Treasury on the due dates, and this is the only Treasury which sent them in time. Next come Kadur and Chitaldrug Districts, in which there was an average delay of four days in the submission of the 1st list and of one day in the 2nd List of Payments, the Cash Accounts having been sent in time. Next in order stand Shimoga, Bangalore and Mysore. Bangalore shows improvement, the delay in the submission of the 1st List of Payments having been reduced from a fortnight to a week, and of the 2nd lists and the Cash Accounts from a week to four days. Mysore which showed progressive improvement in the previous years shows slight falling off this year and it is hoped it will regain its previous standard of punctuality in spite of heavy transactions in this district. The delay of nine and seven days respectively in the despatch of the 1st List of Payments in Kolar and Tumkur is not creditable to these District Treasuries. The delay of three weeks in sending the 1st List of Payments for December 1912 and January 1913 in the Tumkur District is noticeable. It is apprehended that the Rules of Procedure and instructions laid down in paras 688 to 693 of the Mysore Treasury Manual for securing the timely submission of these returns are not being strictly followed and the attention of all Treasury Officers should be invited to them.

(2) *Vouchers and Subsidiary Statements.*—The number of schedules and vouchers which were not received with the Lists of Payments and the Cash Accounts is shown in columns 4 (*a*) and (*b*) of Statement B. It was pointed out in the review for the last year that none of the Treasuries sent those documents complete along with the Cash Accounts and Lists of Payments, that in spite of repeated calls for them, the Treasuries do not send the larger returns for months together and that the work of this office is seriously hampered thereby. No improvement in this respect is noticeable in the year under report, and the Treasuries do not appear to have made any attempt to avoid delay by following the procedure laid down in paras 688, 690 (*a*) and 691 of the Mysore Treasury Manual. Nor are these statements prepared with care and agreed always with the Cash Accounts before they are sent to this office. This, as pointed out in the report for the last year, is an additional source of inconvenience to this office. As usual a list of vouchers overdue and not received from the Treasuries has been prepared and appended to this report.

(3) *Annual Returns. Statement D.*—These were received on the due dates from the Hassan District Treasury, which, as pointed above, is the only Treasury which sent the Lists of Payments and the Cash Accounts also on the prescribed dates. Kadur, Chitaldrug, Mysore and Shimoga Districts sent them within a month, Kolar took nearly two months to send some of these returns, Bangalore more than two months and Tumkur three months. These do not include the annual returns of Savings Bank Accounts, as they are dealt with in the Report on the working of the Savings Banks separately submitted to Government.

(4) *Objection Statements. Statement E.*—With the exception of Mysore and Shimoga Districts there has been considerable delay in the return of these statements in all the other districts.

Conclusion.—Though from what is stated above the working of the Treasuries is not yet quite satisfactory there has, on the whole, been some improvement in the matter during the year.

Letter No. 236, dated the 24th March 1914, from the Deputy Commissioner, Shimoga District, requesting sanction to an estimate for Rs. 532, being half the cost of sinking a drinking-water well in the Chikkapur village, Shikarpur Taluk, under the Village Improvement Scheme.

No. R. 8512-21—L. R. 430-13-11, DATED BANGALORE, 29TH APRIL 1914.

ORDER THEREON.—The total estimated cost of the well is Rs. 1,064, of which one-half will be paid as a contribution by the villagers. Sanction is applied for for providing the other half, from the grant sanctioned for village improvement works. Government are pleased to approve of a contribution of half the cost from the allotments sanctioned for grants-in-aid of village improvement works, as soon as the villagers have raised and spent their share of the cost. In future such grants-in-aid will not ordinarily be allowed for villages in which village committees have not been started and where there is no responsible body to account for the expenditure.

2. The Deputy Commissioner is requested to forward his communications concerning the village Improvement Scheme through the Revenue Commissioner.

REPORT SHOWING HOW SILK IS CULTIVATED AT SEVERAL SILK-PRODUCING CENTRES OF THE MYSORE STATE.

Before commencing any work in connection with the improvement of Sericulture in Mysore through the introduction of the practical methods employed in Italy, it was necessary to ascertain the present state of cultivation of the mulberry-trees and the rearing of the silk-worms.

Therefore, an inspection of the places that appeared to be of interest from this point of view was imperative.

Dr. G. Gorio, Consul for Italy at Bombay, and Mr. K. Subba Rao, Secretary to the Agricultural Committee, have assisted me in my visits to Maddur, Channapatna, Closepet, Chikballapur, Belur, near Sidlaghatta, Kempanahally, and finally accompanied by Mr Subba Rao, I have also visited Hindignol near Hoskote.

The observations which we have been able to make and the data which we have been able to gather on the spot, on our tour, are given below:—

CULTIVATION OF MULBERRY TREES.

Reproduction of mulberry trees and the growing of mulberry plantations.—Mulberry trees are generally reproduced from cuttings. The plants in the mulberry plantations are planted at a distance of about 2 feet and 4 inches apart from one another on each side. The stalks are of an average height of about 1 yard. Every year or every second year they are pruned very close to the ground, so that the plants grow in the shape of bushes.

Irrigation.—The plants are watered at least each time they are stripped of their leaves and the necessary water is supplied from tanks or wells.

Weeding and manuring.—The weeding also is renewed after each time the leaves are removed, whilst manuring is done only once a year between the months of March and April. However, during the rest of the year the ground receives the beds (litieres) of the silk-worms just as they are when they come out from the nurseries. I must, however, here point out the dangers attending this practice owing to the possible propagation of germs of infectious diseases of silk-worms.

Duration of the mulberry plantations.—The average life of the mulberry plantations may be said to be between 20 and 30 years. After that period, the old plants are replaced

by new ones on the same ground, if such can be irrigated. Should it, on the contrary, be impossible to irrigate the ground, some other plant is cultivated after the mulberry tree.

Comparative tests made in manuring.—On the 23rd January, I went and inspected at Maddur a mulberry plantation, where a comparative experiment of manuring was made. One portion of this mulberry plantation was manured with chemical manures, whilst another portion which served as a standard, was not subjected to any special process. The results are not yet known.

Diseases of the mulberry trees.—On the 25th January, I again inspected at Maddur a mulberry plantation affected with Parasitic disease called by the people of the country "Cajji Roga". The Parasite gnaws at the leaves, which are consequently arrested in their growth and wither away until finally they are almost dry. This scourge is known only of very late, but fortunately it does not appear to spread very much. No means are, however, yet known for the prevention of the same.

Annual production of the mulberry plantations.—According to the climatic conditions of the year, the mulberry trees can yield 6 to 8 crops per annum. The owner does not always make use of his own produce, but he often sells it at pretty remunerative prices. Although statistics showing the average production per acre of mulberry plantations during the different seasons of the year and on different kinds of lands would be very desirable, I have been unable to obtain in this connection any reliable data.

Rearing of silk-worms.—Of all the different ways of breeding that I have seen, I have not observed any appreciable difference in the way of rearing the silk-worms.

Silk-worm eggs.—No importance is attached to the source of eggs cultivated, and hence there is no guarantee at all as to the latter resisting diseases, as to their remaining sound and as to the quality of the production that the same will yield.

Incubation.—The breeders have no correct idea as to what a systematic and practical incubation means and many of them buy silk-worms after the second moulting season, not caring to know what care the same have received up to then.

Silk-worm nurseries.—The rooms wherein the silk-worms are reared are not proper nurseries, but are rather rooms unfit for such a purpose. Their principal defects are in some cases the want of shelter from wind and the change of temperature, and in other cases, on the contrary, the impossibility to obtain the ventilation necessary for renewing the air that has become impure, as also the impossibility to lower the temperature during certain hours of the day.

Hygiene.—Even the most elementary rules of hygiene are ignored in the rearing of silk-worms, such as the disinfection of breeding rooms and their adjoinings and of all the tools and apparatus used in the nurseries. But as if that was not enough, a very bad practice due to old superstitions deeply rooted in the people of the country contributes towards aggravating the already painful circumstances under which the silk-worms linger and live. To facilitate a regular growth of the caterpillars it is indispensable to procure for them the space sufficient for moving and breathing freely. I have almost invariably noticed that the silk-worms are so very much heaped up in their hurdles that many of them remain almost entirely hidden by other worms.

Temperature.—Temperature plays a very important part in the rearing of silk-worms both during incubation of the eggs and during the larval life of this equally precious and delicate insect and as regards temperature, it requires special care, especially during its moulting season; and yet, I have never seen a thermometer in the nurseries.

Beds (Litieres).—Nobody can deny the fact that all caterpillars in a wild state live in an irreproachably clean condition. Creeping on the branches or on the leaves of the plants they feed on, they are always free from all contact with any sort of dirt and also their own ejections, and although the same conditions of cleanliness cannot be expected in industrial silk-worm farms, it is nevertheless true that for obtaining good results it is necessary to keep as close thereto as possible. And yet how much apathy (nonchalance) have I not noticed in this respect on the part of the cultivators?

I have found everywhere that the beds (litieres) are allowed to thicken too much. In my opinion, it is due to three principal causes:—

(*a*) The larvæ being too numerous in the hurdles, no sooner have they had their feed than they clamber up the leaves, so that these can only be partially eaten. This also brings about an appreciable loss of leaves.

(*b*) The leaves intended for their feed are often faded or are cut too fine so that owing to the wind they dry up before the caterpillars are able to eat them up. This is again another cause of the loss of leaves.

Revenue (Agriculture), dated 18th April 1914.

(c) Lastly, the change of beds (litieres) is not done frequently enough. To all this, in some cases, must be added the too large a quantity of leaves given for each feed. I shall not here put forward the dangers—that may arise from too thick beds (litieres) especially during the moulting season of the silk-worms and the damp season, which is most favourable for the development of fermentations in general. As regards the change of beds (litieres), I would add that sometimes I have seen silk-worms removed from their beds in a brutal manner by rolling them one upon another. I have, however, also seen this done with the help of a net. This is no doubt a very great advantage, although the use of paper with suitable holes is to be preferred thereto.

Mulberry leaves.—The leaves intended for the feeding of the silk-worms do not always receive the attention they require. Those leaves that are left over after the feed, instead of being spread out in a cool and slightly damp spot, and protected from air, are heavily heaped up in baskets and, then owing to fermentation setting in they get heated and deteriorate. In order that the leaves may keep fresh, it would be necessary to pluck them during the coolest hours of the day with a view to keep them in the condition just stated.

Gathering of cocoons.—Practically, in certain districts the gathering of cocoons is done too prematurely, that is to say, before the silk-worm is able to transform itself into a chrysalis. Two causes account for this:—

(1) The trays (chandrankis) used for placing the caterpillars to weave their cocoons are hired by the breeders and the longer they keep them the more they have to pay hire.

(2) The fresher the cocoons are, the more they weigh and consequently more money is earned by selling them. This practice ought not to be encouraged and it is to be hoped that the same will disappear at a very early date.

Steaming of cocoons.—It is of the utmost importance to completely dry the cocoons so as to preserve them for a long time without their getting spoilt. There are a number of inventors that make apparatuses which answer the purpose very well.

Reeling.—In so far as reeling is concerned, I shall confine myself to say that no system more primitive and less suitable for producing good silk can be thought of than that in use among the reelers of this country.

Conclusion.—The fortunate climatic conditions and the great purity of the air which Mysore enjoys, at least during this season of the year, justify my entertaining the best hopes anent the revival of Sericulture, which is at the present moment seriously jeopardized. It is therefore with great anxiety that are now expected the results of the wise measures that Government have hastened to take in favour of Sericulture. But, the fact that several circumstances of different natures contribute to ultimate success must not be lost sight of. Further, as the temporary installation of an experimental farm does not yet possess all its requisites, it is not in a position to warrant immediate success. To this must be added the difficulty at the present moment for procuring thoroughly reliable eggs. In spite of all, I trust that the introduction of practical methods will give here, at a very early date, as good results as everywhere else where they have been adopted.

NOTIFICATION.

No. R. 8096—Ft. 43-13-5, dated 11th April 1914.

The Government of His Highness the Maharaja of Mysore are pleased to declare, under the provisions of Section 17 of the Mysore Forest Regulation (XI of 1900), that, from the 15th April 1914 the area, the boundaries of which are set forth in the schedule annexed to this notification, shall be deemed to be a "State Forest," subject to the exercise of rights specified at foot thereof.

SCHEDULE.

District	Taluk	Approximate area	Name of block	
Bangalore	Kankanhalli Taluk, Maralvadi Hobli 1. Kallenkuppe 2. Shitalvadi 3. Katrinatha 4. Yelachavadi 5. Bantanal 6. Linganapur 7. Bhimasandra villages	3·64 square miles	Bantanal	*Situation.*—A tract of jungle on the eastern border of the Kankanhalli Taluk situated to the north of the Bilikal State Forest between the Basavanhole and the Salem frontier. *Boundaries.* *North and East.*—Starting from the north-east corner of survey No. 90 of Kallenkuppe, the line runs south along the

Salem frontier to the trijunction bandhs of Bilikal State Forest, Bantanal and the Salem District boundary.

South.—Thence north-west along the Bilikal State Forest boundary to a point on the Basavanhole at the westernmost corner of survey No. 2 of Bhimasandra.

West.—Thence north-east along the left bank of the said Basavanhole for about 75 chains to a point where the Bantanal halla joins it; then along the left bank of the said halla for about 23 chains to the north-east corner of survey No. 3 of Bhimasandra; then south along the halla for 9 chains to the south-east corner of the said survey number; then along the left bank of the said Bantanal halla for about 22 chains to the south-east corner of survey No. 122 of Yelachavadi; then south-east along the southern boundary of the same village for about 57 chains to a point about 19 chains east from the north-east corner of survey No. 13 of Linganapur; then south-east along the Bantanal halla again through survey No. 109 of the Yelachavadi village for 39 chains to meet the east side of the same survey number at a point about 3 chains north from the south-west corner of the said survey number; then north along the east side of survey No. 109 of Yelachavadi to its north-east corner; then south-east through survey No. 108 for 84 chains to a point on the east side of the said survey number about 20 chains north from the south-east corner of the said survey No. 108; then east through survey No. 67 of the same village for 51 chains till it meets a halla at a point 8 chains west from the common bandhs of Achahalli and Marasandra (Salem District); then north and north-west along the left bank of the said halla through survey Nos. 67 and 68 of the Yelachavadi village for 153 chains to a point on the same halla on the northern boundary of survey No. 68, about 5 chains north-east from the north-east corner of survey No. 90 of the same village; then north-west through survey No. 12 of Katrinatta along the said halla for about 15 chains to a point about 6 chains north-east from the northern most corner of survey No. 70 of Yelachavadi; then north-east in a straight line through survey No. 12 of Kattrinatta for 47 chains till it meets the north side thereof at a point about 26 chains east from the south-east corner of survey No. 8 of the Shitalvadi village; then in the same direction through survey No. 3 of the said village for 12 chains to the hotte bandhs on the north side of it about 19 chains south-east from the south-east corner of survey No. 6 of the same village; then in the same direction through survey Nos. 91 and 90 of Kallenkuppe for 108 chains to the starting point.

REMARKS.

A. The following rights of way are admitted within the Block, throughout the year.:—

I. Foot path from Katrinatta to Thalv, 6 feet wide and about 32 chains long, open for men and cattle. It enters the forest in its western boundary at a point about 13 chains south-east from the south-east corner of survey No. 18 of Katrinatta, runs south-east through survey No. 12 of the same village and quits the forest in the eastern boundary at a point about 14 chains north from the south-east corner of the said survey No. 12.

II. Cart track from Yelachavadi to Thaly, 15 feet wide and about 16 chains long, open for men, cattle and carts. It enters the forest in the western boundary near the halla in survey No. 67 of Yelachavadi about 22 chains east from the south-east corner of survey No. 155 of Yelachavadi, goes south-east through survey No. 67 of the same village and quits the forest at the bend of the Salem frontier at a point about 34 chains south-east from the south-east corner of survey No. 155 of the said village.

III. Cart track from Bantanal to Theerbeedy and on to Thaly, 15 feet wide and about 45 chains long, open for men, cattle and carts. It enters the forest in the enclosure of the Bantanal village at the south-east corner of survey No. 14, runs south-east and north-east through survey No. 8 of the same village and quits the forest at the north-east corner of the said survey number.

IV. Cart track from Bantanal to Byalal, 15 feet wide and about 41 chains long, open for men, cattle and carts. It enters the forest in the enclosure of Bantanal, about 5 chains north-east from the southernmost corner of survey No. 22, runs south-east through survey No. 8 of the same village and quits the forest in the eastern boundary about 15 chains north form the southernmost corner of the said survey number.

V. Cart track from Yelechavadi to Bantanal, 15 feet wide and about 5 chains long, open for men, cattle and carts. It enters the forest in its western boundary near

Revenue (Forest), dated 11th April 1914.

the halla at a point about 3 chains north from the south-west corner of survey No. 108 of Yelechavadi runs south-east through survey No. 109 of the same village and survey No. 1 of Linganapur and joins cart track No. III *supra*.

VI. Cart track from Linganapur to Maralvadi, 15 feet wide open for men and cattle and carts. It branches from cart track No. III *supra*, at a point about 1 chain south from the north-west corner of survey No. 1 of Bantanal, runs north-west through survey No. 1 of Linganapur for about 30 chains and quits the forest in the Linganapur enclosure, at a point about 22 chains north-east from the north-east corner of survey No. 2 of the same village; again it enters the forest in the enclosure at a point about 17 chains north-east from the north-east corner of survey No. 2 of the said village, runs south-west for about 10 chains through survey No. 1 of the same village and quits the forest in the enclosure at a point about 10 chains south-east from the north-east corner of survey No. 2 of the same village and again it enters the forest in the Bhimasandra enclosure at a point about 5 chains north-west from the north-west corner of survey No. 4 of the said village, runs north-west for about 21 chains through survey No. 2 of the same village and quits the forest in the western boundary at a point about 22 chains south-west from the north-west corner of survey No. 3.

B. The undermentioned concessions are allowed in the Block:—

(1) Survey Nos. 3, 1, 4 and 5 of Bhimasandra, survey Nos. 17, 16, 15, 14, 12, 11, 18, 10, 9, 13, 3, 2, 19, 5, 4, 7, 6 and 8 of Linganapur are clubbed together and treated as an enclosure with the following boundary:—

Starting from a point on the southern boundary of Yelachavadi about 19 chains east from the north-east corner of survey No. 13 of Linganapur, the enclosure line runs for 19 chains in a south-easterly direction along the south side of survey No. 109 of Yelachavadi to a point on the halla about 23 chains north-west from the north-west corner of survey No. 1 of Bantanal, then south-west in a straight line through survey No. 1 of Linganapur for about 103 chains till it meets the south-west corner of the same village, then north-east along the western boundary of the said village for about 39 chains to a point on the halla about 9 chains west from the south-west corner of survey No. 5 of Linganapur; then along the halla for about 37 chains to a point about 10 chains south-west from the southernmost corner of survey No. 15 of Linganapur; then south-west in a straight line for 21 chains through survey No. 2 of Bhimasandra to a point about 10 chains south-west from the south-west corner of survey No. 5 of the same village; then north-west, north and north-east through survey No. 2 of the same village for 56 chains till it meets the settled demarcation line at a point about 7 chains north from the north-west corner of survey No. 3 of Bhimasandra.

(2) Lingarajanakere, Reddikere and Kalyani situated in survey No. 2 of Bhimasandra are clubbed together and treated as an enclosure with a margin of 2 chains all round. Access to it will be along a foot path leading from enclosure No. (1) *supra*, through survey No. 2 of Bhimasandra.

(3) The block of lands comprising survey Nos. 1 to 30 except survey No. 8 of Bantanal is treated as an enclosure in the reserve. Access to it will be along the cart-track No. IV *supra*.

(4) The raiyats of Dodmaralavadi and Byalal are allowed to take their cattle for water to tank, (survey No. 2 of Bantanal) which is treated as an enclosure within the block, access to it being along the cart track No. VI *supra*.

(5) The raiyats of Dodmaralavadi are allowed to graze their cattle (1,305) in the reserve, on payment of half the prescribed grazing fees, during the prescribed season.

Proceedings of the Government of His Highness the Maharaja of Mysore,

ACCOMPANIMENT.

Letter No. 1675—6 & V. P.—dated, Bangalore, 9th August 1913, from K. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

I have the honor to forward herewith for the orders of Government papers relating to the conclusion of the settlement of the Bantanal block in the Kankanhalli Taluk, Bangalore District, received from the Forest Settlement Officer through the Deputy Commissioner, Bangalore, with his No. 588, dated 12th April 1913.

2. Situated to the north of the Bilikal State Forest between the Basavanhole and the Salem District in the British territory, the Block in question measures as settled 2,335 acres 1 gunta or 3·64 square miles comprising assessed waste, kharab and gomal lands as detailed in the margin. Seven villages have contributed to the formation of this block out of which two are bechirakh. Adequate provision has been made by the Forest Settlement Officer to meet the growing needs of cultivation and grazing in the several villages affected by the reservation under reference.

	A.	G.
1. Assessed waste	19	30
2. Kharab ...	2,202	11
3. Gomal ...	113	0
Total ...	2,335	1

3. Eighteen claims, as detailed below were preferred before the Forest Settlement Officer and all but two were admitted by him :—

1. Claims to right of grazing ... 2.
2. Claims to right of way ... 5.
3. Claims to miscellaneous rights ...11.

4. No appeals were preferred to the Deputy Commissioner against the decisions of the Forest Settlement Officer and the Deputy Commissioner himself has recorded no objection to the reservation in question. The final notification may, therefore, issue.

ENCLOSURE 1.

Letter No. 231, dated Camp Hunchikatte, 31st January 1913, from the Forest Settlement Officer in Mysore, to the Revenue Commissioner in Mysore, thro' the Deputy Commissioner, Bangalore District.

I have the honor to report on the conclusion of the settlement of the Bantanal Block in the Kankanhalli Taluk of the Bangalore District.

2. The initial notification under Section 4 of the Mysore Forest Regulation proposing to constitute the area into a State Forest appeared on pages 181, 182 and 183 of the English issue of the *Mysore Gazette*, Part I, dated the 24th March 1910, and the proclamation under Section 5 of the said Regulation was issued by me and the same was published on pages 382, 383, 384 and 385 of the Kannada issue of the *Mysore Gazette*, Part II, dated 19th May 1910.

The proclamatory notices were got served on the villagers concerned through the Amildar of the Kankanhalli Taluk.

3. The tract was inspected and perambulated by me in company with the Amildar and the Range Officer on the 7th and 8th January 1912.

4. The undermentioned eighteen claims were preferred to me during the enquiry :—

(i) Two claims to right of grazing.
(ii) Five claims to right of way,
and (iii) Eleven claims to miscellaneous rights.

All the claims in (i) and (ii) were admitted; of the eleven claims in (iii) nine were admitted and two rejected.

5. In the Bantanal village, all the village lands (survey Nos. 1 to 30) except survey No. 8 have been proposed to be treated as enclosure within the reserve; out of these, survey Nos. 4 and 7 are occupied lands and survey No. 2 is a katte. During my inspection I found all these survey numbers well studded with sandal trees of various dimensions and it is a pity why such a valuable tract was not proposed to be included in the reserve in question.

6. As, however, the holder of the occupied survey numbers measuring 10 acres and 36 guntas, *viz.*, Virabhadriah agreed to surrender his rights if an extent of 15 acres of land out of survey No. 1 of Linganapur be given to him in exchange (*vide* the statement recorded by me, pharist No. 6). I referred the matter for opinion of the Amildar of Kankanhalli in the matter of their acquisition for the Forest Department. He is in favour of the exchange proposed, and has submitted the papers relating to the sub-division of the lands asked for by Virabhadriah (*vide* Amildar's report No. 1047, dated 25th April 1912).

Revenue (Forest), dated 11th April 1914.

7. As the remaining survey numbers are all unoccupied, I beg to strongly recommend that the exchange may be sanctioned and the whole tract treated as part of the proposed State Forest. If this proposal meets with the approval of Government, the enclosure line in the Bantanal village marked in the sketch map, has to be cancelled and the requisite correction made in the 'C' Register and the boundary notification.

8. The Deputy Commissioner has informed me in his docket No. 517—R., dated 19th September 1912, that no appeals have been preferred to him against my settlement decision.

9. The following records are herewith submitted :—

1. 'B' Register.
2. 'C' Register.
3. Sketch Map.
4. Boundary notification.

and 5. Topo-tracing.

10. The date from which the reservation is to take effect may be inserted in the draft boundary notification.

1	Munisamiah, khatedar of survey Nos. 59 to 66 and new sub-divisions formed out of kharab survey No. 67 of Yelachavadi.	7th Jan. 1912	Represents that as the preliminary demarcation line runs close to the cultivated fields, it may be shifted further away and that lands for the pasturage of his village cattle to the extent of about 500 acres may be excluded from the reserve.	.....	It is sufficient for the purpose of cultivation if the line is shifted as per rules. As there remains adequate gomal for the pasturage of the cattle, there is no reason to exclude more lands. If there is really need, the cattle may be taken to the State Forest on payment of 4 as. per head.	(1 and 2). Yelachavadi village contains 91 houses with a population of 297 persons and a stock of horned cattle numbering 452 in addition to sheep and goats. It has 4 hamlets. Many of the lands proposed to be taken from this village to the forest, lie around the hamlet of Vaspatna, which has been recently established by one Munisamiah. He has built a tank and excavated 5 or 6 wells for raising sugar cane in the locality. Evidently owing to want of information at the time of the proposal made by the Forest Department, the forest boundary line includes about 25 sub-divisions pboded out of kharab and gomal lands abutting on the said hamlet; and as they are already under cultivation, there is no alternative but to exclude them from the reserve, though the formation of these new survey numbers has not yet been approved by the Survey Department. The above mentioned individual and other raiyats have since applied for, for cultivation purposes, about 270 acres out of kharab and gomal lands. As the extent of assessed waste lands available for being taken up on darkhast, is only 12 acres and as there is a real demand for lands for agricultural purposes, provision has to be made for extending cultivation. I accordingly direct that the boundary line at the northern frontier of the village be shifted to a point about 13 chains south-east from the northern most corner of survey No. 70 of Yelachavadi and taken along the west side of the halla for about 153 chains to a point about 8 chains west from the gadi bandhs of Achahalli and Marasandra, (Salem District) then westwards in a straight line for 51 chains till it meets the eastern boundary of survey No. 108 at a point about 2 chains north from the south-east corne		
2	Raghunatha Rao, patel of Yelachavadi, on behalf of the raiyats	7th Jan. 1912	States that as there are 4 hamlets attached to his village, the gomal land now remaining is inadequate for his requirements and prays that more lands may be excluded for the raiyats' use.					

Revenue (Forest), dated 11th April 1914.

						of the same survey number and then north-west in a straight line till it meets north-west corner of survey No. 103. As the extent of land now excluded contains only fuel species, there can be no manner of objection for its exclusion from the reserve, considering the fact that a large portion of it is already under cultivation and that the remaining lands are sure to be brought under the plough as soon as the darkhasts are sanctioned by the Revenue authorities. C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.
3	Raghunatha Rao, patel of Yelachavadi.	7th Jan. 1912	Requests that right of way to the cart-track leading to Thali and to Bantanal may be admitted.	.....	.....	Right of way to the cart-track leading to Thali through survey No. 67 and to Bantanal *viâ* survey No. 109 will be admitted for men, cattle and carts all the year round. Width to be 15 feet. C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.
4	Raghavendra Rao, patel of Shitalvadi, on behalf of the raiyats.	Do ...	States that she demarcation line goes all round the cultivated lands obstructing the cattle from grazing near the fields and begs that survey No. 3 (Kharab) may be excluded from the reserve, as there is no gomal land assigned for his village.	.....	An extent of 20 acres may be left for the pasturage of 66 head of cattle the village now contains.	The proposed boundary line runs on 3 sides of the village, while on the fourth side, it is bounded by a stream. In fact, the demarcation line runs almost all round the cultivated lands cutting off from the village survey No. 3 which is the only pasture land. There being no assessed waste land remaining for being taken up on darkhasts, the village is practically deprived of grazing and agricultural lands. From the Amildar's report it will be seen that darkhasts for 130 acres of land have since been received and I was satisfied during my inspection of the village that there is a real demand for lands for cultivation. In these circumstances, I would alter the forest boundary line in this village so as to make it run in continuation of the western boundary of the forest in the Kallenkuppe village meeting the southern boundary of the Shitalvadi at a point about 32 chains west from the trijunction of Katrinatta, Kallenkuppe and Shitalvadi. By this arrangement about 84 acres will be secured for the use of the village, out of the proposed extent. C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.

5	Virabhadriah, patel of Bantanal, on behalf of the raiyats.	7th Jan. 1912	States that except the assessed waste lands, the remaining extent may be included in the reserve.	.....	As all the assessed waste lands are studded with sandal trees the Government may be kindly moved to include the whole of Bantanal.	This is a bechirakh village. All the assessed waste survey numbers and kharab lands are studded with sandal. Out of these about 28 survey numbers are unoccupied waste lands, the only survey numbers under occupancy being survey numbers 4 and 7. The tract is undoubtedly a natural habitat of this valuable species of tree and is destined to become a rich sandal grove in the near future. According to Government Order No. R. 6256—Ft. 120-09-2, dated 18th March 1910, proposing the constitution of the block in question into a State Forest, these assessed lands have to be treated as enclosures. In view of the rich growth of sandal in this locality, a special recommendation will be made for the same being included within the reserve, as none of the unoccupied lands can be given out for cultivation on account of the forest revenue accruing from the sandal trees standing on them. The occupant of survey numbers 4 and 7 is willing to surrender his rights in exchange for lands near the Linganapur village. C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.	.....	
6	Virabhadriah, khatedar of survey Nos. 4 and 7 of Bantanal.	Do ...	States that he is willing to take in exchange for survey Nos. 4 and 7 which are in his holding and which are proposed to be treated as enclosures, 15 acres out of survey No. 1 of Linganapur village.					
7	Virabhadriah, patel of Bantanal.	Do ...	Requests that right of way to the cart tracks leading to Thali and to Byalal may be admitted.			Right of way to the cart tracks leading to Thali *viâ* Theerbedi through survey No. 5, and to the cart track to Byalal through the same survey number will be admitted for men, cattle and carts throughout the year. Width to be 15 feet. C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.		

Revenue (Forest), dated 11th April 1914.

8	Ascertained by the Forest Settlement Officer.	7th Jan. 1912	The raiyats of Maralvadi request that the tank (survey No. 2 of Bantanal) may be excluded for the use of their cattle.	.....		A camping ground of 2 chains around the tank (survey No. 2) will be treated as an enclosure. The right of the raiyats of Maralvadi and Hyakal to take their cattle for water to tank (survey No. 2) will also be admitted. C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.
9	Virabhadriah, patel of Bhimasandra, on behalf of the raiyats.	Do	Represents that about 150 acres out of the extent proposed may be excluded for being given out for cultivation as there is demand for the same.	.....	As there is a large extent of land fit for cultivation near the khatedar's houses, no land is required for them.	This is also a beckiriah village. Survey Nos. 1, 3, 4, and 5 are under cultivation and the same will be treated as enclosures with a right of way along the cart track leading from Lingampur to Maralvadi. A margin of 5 chains from the cultivated fields, on the north and west, and 10 chains on the south east and as far as the halla on the east will be left in view of future expansion of cultivation. C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.
10	Virabhadriah, patel of Bhimasandra.	Do	Represents that Lingarajenkere, Reddikere and a pond known as Kalyani are situated in survey No. 2 and prays that these may be excluded from the reserve.	.....	Do	... Lingarajenkere, Reddikere and a Kalyani situated close by are said to be sources of water-supply for cattle of the outlying villages. As the raiyats are interested in their maintenance, these will be demarcated out free from reservation with a camping ground of 2 chains all round; right of way to it will be along a foot path 6 feet wide, for men and cattle. C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.
11	Kalliah, Shettigar of Sivachar community and resident of Maralvadi.	Do	States that as the gomal land of Maralvadi is insufficient for grazing his village cattle, they are taken to the lands of Bhimasandra and the Bilikal State Forest, and prays that this right may be admitted on payment of halbatni which the raiyats are now paying.	.....	Raiyats may be allowed to graze their cattle in the whole of the State Forest on payment of grazing fees.	The raiyats of Dodmaralvadi have set up a claim in the matter of grazing in the Bhimasandra lands and have adduced evidence in support of it. It is in evidence that under the management of the District Forest under the Revenue Department, a grazing fee varying from

						3 pies to 6 pies is being recovered on every head of cattle Dodmaralvadi is the headquarters of the hobli and is the biggest village in these parts. In consideration of the fact that the raiyats thereof have been enjoying for a long time the right of grazing on payment of a nominal hulbanni fee, I direct that they be entitled to graze their cattle (1,905) on payment of half the prescribed grazing fees, during the prescribed season. C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.		
12	Virabhadriah, patel of Bhimasandra.	7th Jan. 1912 ..	Requests that a right of way to the cart-track leading to Maralvadi from Linganapur may be admitted.	.....		Right of way to the cart-track leading to Maralvadi from Linganapur will be admitted for men, cattle and carts throughout the year. Width to be 15 feet C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.		
13	Virabhadriah, patel of Linganapur.	Do ...	States that the whole of his village is included within the block, that some lands as now marked by him in pencil in the village map may be excluded for grazing and cultivation and that he is in the holding of 5 survey numbers and lately got 2 survey numbers phoded out of survey No. 1 of Linganapur, and prays that these lands may be excluded from the reserve. (2) Requests also that Vibhutikunta in survey No. 1, a well and a pond close to survey No. 16 may be excluded.		The extent of cultivated land applied for by the patel is too much in proportion to the number of men said to be in want of it. As for pasture lands, the raiyats may be allowed to graze their cattle in the Bilikal State Forest on payment of usual fees.	This is another village which owes its existence to private enterprise of patel Virabhadriah who has taken much pains to bring the entire assessed waste lands thereof under cultivation. Subsequently two new survey numbers, *viz*., 18 and 19 out of kharab survey No. 1 have been formed and granted for cultivation. According to the proposal of the Forest Department, the whole of this village will be included in the reserve, the village site and the cultivated lands being treated as enclosures. Provision has, therefore, to be made for grazing and expansion of cultivation. I understand that darkhasts for about 470 acres have been received by the Amildar. Considering the facts that there are only 20 houses in the village, there is reason to presume that many of the applicants are not really earnest in

						getting lands. I would however exclude some lands from the proposed extent. I accordingly direct that a triangular plot with the base line running from the common boundary of Linganapur, Bhimasandra and Bilkal State Forest to the northern boundary line of the village meeting at a point about 22 chains west from the north-east corner of the village itself, be treated as an enclosure within the block. (2) These fall within the above enclosure. C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.
14	Veerabhadrish, patel of Linganapur.	7th Jan. 1912...	Requests that right of way to the cart-track leading to Theerbedi may be admitted.	.....		Right of way to the cart-track leading to Theerbedi and on to Thaly will be admitted for men, cattle and carts throughout the year. Width to be 15 feet. (*Vide claim 7*). C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.
15	Sivanegowda, patel of Kathinatta on behalf of the raiyats.	Do	States that the lands now left are insufficient for the village cattle and prays that more lands may be excluded from the reserve, as also Yerrakunta in survey No. 12.	.....	An area of 192 acres and 36 guntas of kharabland has been left for 59 head of horned cattle which is more than enough and therefore no land may be excluded.	It is proposed to take 276 acres out of this village for the reserve. The village has neither assessed waste lands nor gomal. As a provision for future agricultural expansion and for grazing, I would exclude 95 acres. I accordingly direct that the boundary line of the forest ending at the southern village boundary of Shitalvadi be made to run southwards in a straight line so as to meet the small halla to the south of survey No. 18 of Kathinatta at a point about 6 chains north from the northernmost corner of survey No. 70 of Yelachavadi and then along the said halla crossing the northern boundary of the same village. Yerrakunta falls outside the settled line. C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.
16	Do	Do	Requests that right of way to the foot-path leading to Thaly may be admitted.			Right of way to the foot-path leading to Thaly will be admitted for men and cattle throughout the year. Width to be 6 feet. C. VENKATA RAO, Forest Settlement Officer. 9th January 1912.

17	Sivanegowda, patel of Kallankuppe.	7th Jan. 1912.	Represents that the whole of the hamlet of Vaddarkuppe is treated as an enclosure within the reserve, that all the lands round the above hamlet may be excluded for the benefit of the raiyats, as the gomal and kharab lands are inadequate for grazing, they take their cattle to the adjoining British State Forests of Thaly for grazing.	...	The claim for more grazing lands cannot stand, as the number of cattle including 7 hamlets is 1,367 which requires about 410 acres, whereas as many as 855 acres and 5 guntas have been left for grazing their cattle. If these men graze their cattle in the British forests, it must be for some other reason than for want of grazing.	17 and 18. The village of Kallenkuppe contains 167 houses with a population of 734 and a live stock of 1,367 head of horned cattle and 1,108 sheep and goats. After deducting the area proposed for inclusion in the forest, there remains for the pasturage of the cattle and for the exercise of other communal rights 283 acres of kharab and 457 acres of gomal. The extent of gomal is on the face of it insufficient for the large herds of cattle mentioned above. Besides the village contains 7 hamlets which are situated far apart from one another. As the suit is slowly, the growth of grass being scanty, the villagers have been obliged to take their cattle to the frontier British forests for grazing. They have produced the grazing licenses issued by the British authorities to them. This is sufficient proof that the pasturage of the entire extent of gomal and kharab lands is quite inadequate. The Range Officer who was present at the enquiry is of opinion that the raiyats take their cattle to the British forests for reasons other than for want of grazing grounds near at home. I cannot comprehend what sinister motives they can have for taking their cattle to graze within the British jurisdiction. It is in evidence that about 150 acres have since been given out for cultivation out of the gomal and kharab lands of the village and these lands have been made into separate survey numbers. The latter are scattered all over the village pasture lands and they cannot be treated as enclosures without inconvenience to the raiyats and further, it would not conduce to effective fire-protection. One of the hamlets, *viz.*, Vaddarkuppe and every survey number belonging to it have been proposed to be treated as en-	
18	Do ...	Do ...	States that there is a kunta named Parsivanagowda kunta in survey No. 81, another of the same name in survey No. 79 and a third one of the same name in survey Nos. 80 and 82 that these may be excluded from the reserve as cattle and men go for drinking water and also states that the Muneswarabetta in survey No. 78 may be treated as an enclosure with access to it.

closures. This proposal, if confirmed is sure to result in the village being abandoned in the near future. There is no valuable species in the locality and the jungle is only an open scrub. The gain if any, is certainly incompatible with the interests of the raiyats concerned. I would therefore exclude a large extent of lands from the proposed extent for the requirements of the raiyats of the 7 hamlets referred to above. I accordingly direct that the northern boundary line be made to begin at the north east corner of survey No. 70 of Kallenkuppe and the western boundary be altered so as to run in a south-westerly direction from the above corner and meet the southern bottu branchs of survey No. 91. The result of the alteration of the boundary line is that about 385 acres of land only from this village will be included in the reserve in question. The claims of the raiyats for right of way and water are admitted, and the alteration of the forest boundary, excludes several path-ways, and sources of water-supply and the temple referred to by the village patel.

Letter No. E. D. dated the 27th January 1913, from the Excise Commissioner in Mysore, recommending that to keep in line with the enhanced rate of duty in the frontier districts of the Madras Presidency the rate of still head duty on arrack in the State may be raised to Rs. 7 per proof gallon.

2. Letter No. 5961, dated the 22nd January 1914, from the same officer, stating that the rate of still head duty on arrack and its selling price may be raised to Rs. 7 per proof gallon and Rs. 7-7-0 a gallon of 25° U.P., respectively, as there has been a marked increase in the consumption of this liquor and the continuance of such increase militates against the accepted policy that consumption should be kept at a minimum consistently with legitimate demand.

No. FL. 4502-11—S. R. 178-12-5, DATED BANGALORE, 2ND APRIL 1914.

ORDER THEREON.—The rates proposed by the Excise Commissioner are sanctioned with effect from 1st July 1914.

Government Order No. 6523-1—Mi 327-10-1, dated the 11th March 1912, directing that the Municipal Councils of the Bangalore and Mysore Cities should cease to levy Registration and surcharge fees from arrack shop-keepers within the respective Municipal limits.

2. Government Order No. Fl. 4132—S. R. 197-11-5, dated the 16th April 1912, authorising the levy of these fees by the Excise Department.

3. Government Order No. Fl. 37—S. R. 197-11-8, dated the 4th July 1912, directing that the said fees be credited to the Excise Department under a distinct head of accounts.

4. Government Order No. 4066-9—Ml. 272-11-13, dated the 3rd October 1913, assigning to the Municipal Councils of Bangalore and Mysore the realizations from these fees within their Municipal limits.

5. Letter No. 1738, dated the 15th August 1912, from the Excise Commissioner in Mysore, recommending the continuance of grant of the allowance of Rs. 5 a month to the special shroff, Bangalore Taluk, which he drew from the Municipality prior to July 1912 for the extra work involved in collecting these fees.

6. Letter No. 3339, dated the 31st December 1912, from the same officer, submitting for sanction a like proposal for the continuance of the allowance of Rs. 3 a month to the special shroff of the Mysore Taluk.

No. Fl. 4610-13—S. R. 41-12-3, DATED BANGALORE, 8TH APRIL 1914.

ORDER THEREON.—The realizations from the fees referred to above are credited to "Excise" under separate heads, and though such realizations are assigned to the Municipal Councils of Bangalore and Mysore, the necessary adjustments in the accounts will be effected by the Comptroller in communication with the Excise Commissioner and the Presidents of the Municipal Councils concerned, in accordance with the procedure prescribed in para 50 of the Treasury Manual for the adjustment of local cess. Government consider that no case has been made out for the grant of extra allowances to the special shroffs inasmuch as they collect surcharge fees along with duty and price as a part of their regular duties.

R. 261-12-2, dated the 2nd December 1913, ordering the introduction of the stamps of the new design from 1st March 1914 and prescribing the periods of time within which the old stamps in the possession of private persons may be used or got exchanged for new ones.

2. Government Order No. Fl. 2348-58—S. R. 261-12-1, dated the 2nd December 1913, laying down the procedure to be adopted for the despatch of old stamps from the several treasuries and for their destruction in the office of the Superintendent of Stamps.

3. Correspondence ending with letter No. 466, dated the 27th February 1914, from the Commissioner of Stamps in Mysore, recommending, among other proposals, that the stamps of the new design may be issued from the treasuries from the 15th May 1914 and that large stocks of skeleton printed forms which have been already impressed with stamps by the Superintendent of Stamps may be exempted from the rule prohibiting their currency after this date.

No. FL. 4652-701—S. R. 261-12-14, DATED BANGALORE, 9TH APRIL 1914.

ORDER THEREON.—On further consideration, Government are pleased to direct that the stamps of the new design be brought into use from the 15th May 1914, from which date the issue of old stamps from the Government Treasuries is prohibited.

2. The instructions already issued regarding the use of old stamps, their exchange for new ones and their recall for destruction will hold good, subject to the several dates prescribed being altered according to the above decision of Government. Report on the working of the Co-operative Societies in Mysore during the year 1912-13, received with letter No. 69, dated 25th October 1913, from the Registrar of Co-operative Societies in Mysore.

No. FL. 4547-8—B. 44-13-2, DATED BANGALORE, 3RD APRIL 1914.

ORDER THEREON.—*Itineration.*—During the year under review, the Registrar toured for 197 days, the Assistant Registrar for 90 days and the Inspectors for 240 days on an average. All the working societies were inspected at least once during the year. Government trust that an endeavour will be made to have the societies inspected oftener in future.

2. *Conferences.*—The year under review was remarkable for the number of conferences held in the different parts of the State, some of them, *viz.*, those at Hassan, Channagiri, Yedarur and Tumkur having been mainly organized by private agency. At each of these gatherings, large number of delegates were present and took a lively interest in the proceedings. The Second Provincial Conference was held in Mysore in October 1912 under the auspices of His Highness Sir Sri Kantirava Narasimharaja Wadiyar Bahadur, K. C. I. E., and was presided over by Rajamantra Pravina Mr. H. V. Nanjundayya, M.A., M.L., C.I.E., First Member of Council and the report of the proceedings has already been noticed in Government Order No. 2067, dated the 8th November 1913. The other interesting features of the year's work were the starting of Unions at Hassan and Tumkur and the extension of the benefits of co-operation among the members of His Highness the Maharaja's Body Guard and the employees of the Palace Stables and among the backward classes such as the Holeyars and Madigars, and the coolies employed in the Kolar Gold Fields.

3. *Societies, their number and working.*—The number of societies rose from 208 to 343 or by 65 per cent, the number of members from 13,148 to 24,538 or by 87 per cent and the working capital from Rs. 6,75,312 to Rs. 12,89,388 or by nearly 91 per cent. The total net profits of the year amounted to Rs. 62,520 as against Rs. 34,836 during the year 1911-12, and the reserve fund rose from Rs. 18,833 to Rs. 30,600. The total transactions of all the societies amounted to Rs. 59,52,081 against Rs. 34,88,955 and represents an increase of 70·8 per cent. The profits on the transactions yielded a return of about 1·05 on the turn over or 9·21 per cent on the share capital, showing an improvement over that of the previous year.

4. Out of the 343 societies, 31 did no work during the year, as most of them were started towards the end of the year, and 43 others did not furnish statistics. It is hoped that all the societies will realise the advantage of keeping in close touch with the department and will readily furnish information of their work and progress. It would also be useful if the Registrar bestowed special attention on the backward societies for a time and by more frequent visits and advice stimulated them to organised activity.

5. The City Societies still continue to lead and the bulk of the entire business is done by them. The principal business of all the societies was banking. There were, however, ten societies for weavers and for lacquerware manufacture. It is encouraging to note that these have done good work as they transacted business to the extent of more than four lakhs. Of the Societies in the interior, the marginally noted ones deserve special mention on account of the good work done by them and the enthusiasm displayed by the members. It is satisfactory to note that the Koppa Agricultural Society has made

1. The Diare-e-Islam Co-operative Society, Channapatna.
2. The Channapatna Lacquerware Factory.
3. The Sidlaghatta Co-operative Society.
4. The Chikballapur Co-operative Society.
5. The Yedarur Co-operative Society.
6. The Sira Co-operative Society.
7. The Kunigal Co-operative Society.
8. The Chiknayakanhalli Co-operative Society.
9. The Turuvekere Co-operative Society.
10. The Coronation Society, Honnavalli.
11. The Melkote Weavers' Co-operative Society.
12. The Kommerahalli Co-operative Society.
13. The Sri Lakshmi Narasimha Co-operative Society, Hole-Narsipur.

14. The Arsikere Co-operative Society.
15. The Channagiri Sri Ranganatha Paraspara Sahaya Sangha.
16. The Nallur Mallikarjuna Sangha.
17. The Zahir-ul-Islam Co-operative Society, Molakalmuru.

a small profit though it has not been able to recoup the heavy loss sustained in the preceding year; and it is gratifying to note that a few gentlemen are helping the society by making advances without interest to enable the society to maintain itself as a going concern and recoup its losses.

6. *Loans.*—Loans amounted to nearly 19½ lakhs, those for productive purposes amounting to over 54 per cent as against 5·1 per cent used for non-productive purposes; loans for the payment of prior debts amounted to about 22·6 per cent. There is every indication that the resources of the societies are properly utilised to assist the members. Recoveries amounted to more than 72 per cent and may be considered to be satisfactory.

7. *Resources.*—It is an encouraging sign that so far the societies are, to a great extent, working with their own share capital and deposits and loans from the Central Bank, and Government aid is required only in very few cases.

8. *Litigation.*—The number of suits filed by the societies before the Registrar was 70 against 82 in the previous year. Including the suits pending at the beginning of the year the total number was 107. Of these 64 were withdrawn and decrees were passed in 28 cases and 15 were pending disposal. In this connection the attention of the Registrar is invited to Section 27 (*o*) of the Mysore Co-operative Societies Regulation and the rules thereunder which provide for compulsory arbitration in the case of disputes with members. It will be interesting to know if this provision has been made use of and to what extent.

9. *Audit and inspection.*—The number of societies audited and test audited was 225 or nearly 66 per cent. It is however observed that a thorough and effective audit of every society is a matter requiring special attention and such an audit is a duty devolving on the Registrar under Section 21 of the Co-operative Societies Regulation. The step taken by the newly formed Hassan Union for inspecting and supervising some of its constituent societies makes a promising beginning. Government hope that with the formation of more Unions the inspection of a large number of societies will be taken up by them giving the Registrar and his staff opportunities to bestow greater attention on the inactive and backward societies.

10. *Concluding remarks.*—In all directions the progress of the co-operative movement during the year 1912-13 has been extremely satisfactory. There has been a marked rise in the number of societies in the maidan districts of the State and Government are glad to note that the Registrar freely received help both from officials and from non-officials in various directions connected with the movement. Government commend to the attention of the Registrar the desirability of bringing the co-operative movement into close touch with the Agricultural and the Veterinary Departments.

It is noticed that many of the registered societies have assumed names of inconvenient length. The Registrar should be good enough to use his influence to encourage the adoption of shorter names in future.

The acknowledgments of Government are due to Mr. Narayana Iyengar and his staff for the steady and rapid advance made during the year in the spread of co-operation in the State.

No. Fl. 5008-10—B. 47-13-1, dated Bangalore, 24th April 1914.

Order.—With a view to enable teachers of aided schools to make some provision after retirement for themselves and their families, Government have decided to throw open the benefits of the State Life Insurance Scheme to the men subject to the acceptance of the following conditions on their behalf by the governing body of the aided institution in which each is employed:—

(1) that the institution concerned undertake to withhold the premia due every month out of the pay of such of the teachers in their staff as draw Rs. 10 and upwards and pay the amount into local Government Treasuries before a fixed date;

(2) that insurance in the State Insurance Scheme be held compulsory in the case of all future employees entertained by them from 1st July 1914, to the same extent and subject to the same conditions in regard to the observance of rules for the State Life Insurance as in Government Service; and

(3) that insurance in the case of existing teachers not debarred by age limit under the Insurance Rules be considered optional, such option to be exercised before the end of December 1914.

Proceedings of the Government of His Highness the Maharaja of Mysore, Judicial and Legislative (Courts), dated 17th April 1914.

READ—

Subject No. 40 of the proceedings of the Representative Assembly of 1912.

Summary of discussion.—In civil courts depositions of witnesses were being taken down in Kannada by the court clerks, the judge taking down in English only notes of important facts.

Deposition of witnesses in civil courts. Messrs Veene Rangaswami Iyengar, Krishna Setti and W. Subraya Mudaliar of Seringapatam Taluk, K. Ramanna, Hole-Narsipur, and H. Krishnappa, Law Association, Bangalore, and C. Subba Rao, Shimoga District Board.

The practice of taking down depositions in Kannada has been done away and the present system of the judge himself taking down the whole of the deposition in English works as a hardship in many ways. Pray that the old system may be revived.

Many members spoke in favour of the representation and said that there was no advantage in the new system which leads to delay as the evidence has to be interpreted and read out to the witnesses, as also several pleaders did not know English.

Reply of Government.—The old practice will be restored.

2. Correspondence ending with letter No. 720-47, dated the 11th August 1913, from the Registrar, Chief Court, stating that for the reasons set forth therein the Judges do not advise a reversion to the system of taking down evidence in Kannada either as the only record of the evidence or in addition to the taking down of notes in English by the presiding Judges.

No. J. 2986-90—CTS. 23-13-3, DATED BANGALORE, 17TH APRIL 1914.

ORDER THEREON.—Under Section 138 of the Code of Civil Procedure, 1911, Government have the power to direct that the recording of evidence in Kannada in civil cases be dispensed with and this power has latterly been exercised in favour of a large majority of the courts.

2. In the Representative Assembly of 1912 it was represented that there was no advantage in the single record system as, far from saving time, it really entailed more work and delay and that the old system might be restored. The Chief Court, who were consulted on this representation, consider that the single record system has been working well and that a reversion to the old system is inexpedient.

3. The question has received the careful consideration of Government. They observe that under the old system two independent records of evidence were available for comparison with each other, affording an increased assurance of absence of errors from the recorded depositions of witnesses. It is further much easier to take down the words of the witness in his own language, the presiding Judge merely making a memorandum of such evidence in English, than to translate first of all the whole evidence for purposes of the English record and thereafter to retranslate this record into Kannada for the information of the witness concerned. As a rule, depositions recorded in Kannada have been found to be fairly accurate and instances are not wanting in which such record has helped to correct the English record taken down by the Judge.

4. As regards the alleged difficulty of the appellate courts in dealing with evidence recorded in Kannada, Government think that it cannot be considerable as almost all the Judges in Mysore are fully conversant with the Kannada language and as the memoranda of evidence taken down in English by the presiding Judge of the lower court will be found sufficient in the generality of cases for purposes of the appellate courts.

5. For the foregoing reasons, Government consider it desirable to revert to the original system of double record in the courts of Munsiffs.

6. The Chief Court is requested to report if the power conferred under Section 138 of the Code of Civil Procedure may be withdrawn in the case of all the civil courts at once or a beginning made with the courts having lighter work.

Government Order No. 2697-145—G. M. 55-12-239, dated the 2nd September 1913, laying down rules to regulate the grant of loans for industrial and commercial purposes.

No. G. 8386-434—G. M. 67-13-247, DATED BANGALORE, 18TH APRIL 1914.

ORDER.—Government consider it expedient to delegate the Director of Industries and Commerce larger powers than are conferred by the above rules, to sanction loans for industrial operations and they desire to associate the Industries and Commerce Committee of the Economic Conference with the working of these rules and enable that body to keep in touch with the development of industrial work. They are accordingly pleased to modify Rules 2 and 17 of the above rules as follows:—

2. "The Director of Industries and Commerce shall be competent to sanction loans not exceeding Rs. 2,500, under Rules 11 and 12 *infra*, this limit including, in the case of hire-purchase transactions, the amount deposited by the applicant. The Chairman of the Industries and Commerce Committee may sanction loans under Rules 11 and 12 for larger sums but not exceeding Rs. 5,000; loans for sums exceeding Rs. 5,000 shall require the sanction of Government."

Add the following to Rule 17:—

"In cases of loans under Rules 11 and 12 for sums exceeding his powers of sanction, the Director will forward to the Chairman of the Industries and Commerce Committee, the papers connected with the applications, together with his report thereon, accompanied by a brief statement of each case where the original papers are lengthy. The Chairman will himself dispose of the case if the loan is for a sum not exceeding Rs. 5,000, or, if it is for a sum exceeding that amount, forward the application to Government with the opinion of the Committee thereon. Cases placed before the Committee for opinion should be considered by the Committee and finally dealt with at the meeting to be held next after their receipt, so that no delay may occur in their disposal."

A statement of all loans sanctioned by the Director and by the Chairman, Industries and Commerce Committee, shall be submitted once a quarter to Government, loans sanctioned by the Director being intimated to the Industries and Commerce Committee also for information.

Proceedings of the Government of His Highness the Maharaja of Mysore, Muzrai, dated 2nd April 1914.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. of 1914.

Appellant	*vs.*	*Respondent.*
Subbamma, wife of Nanjunda Dikshit.		Kumaraswami Dikshit, guardian for his minor son Subraya.

Subject.

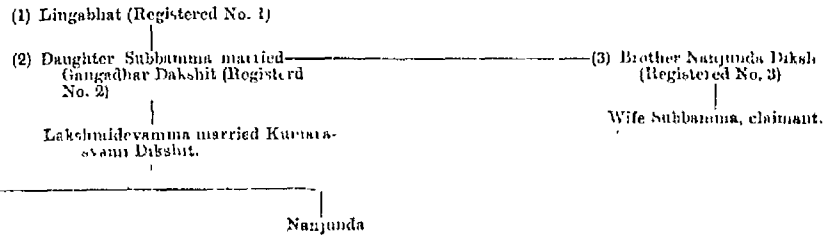
Archakship of Sri Srikantesvarasvami temple at Nanjangud.

Facts of the case.

One Lingabhat was the registered Archak of Sri Srikantesvarasvami temple at Nanjangud. On his death without male issue about 1879, the office was registered in the name of Gangadhar Dikshit, husband of his daughter Subbamma. Subbamma died in January 1883 leaving a daughter Lakshmidevamma who married Kumarasvami Dikshit, the respondent. Gangadhar Dakshit married again one Parvatamma. He died on 11th August 1897. The widow Parvatamma petitioned the Amildar on 14th August 1897 to transfer the office to the name of Nanjunda Dikshit the brother of Gangadhar Dikshit. The respondent Kumarasvami Dikshit was present during enquiry on this petition but appears to have raised no objection. On the recommendation of the Deputy Commissioner, it was ordered in Rubkari No. 805, dated 25th November 1897, that the Archak baraward be transferred to the name of Nanjunda Dikshit. The latter performed the duties until February 1911 when he died leaving a widow by name Subbamma who is the present appellant. Subbamma prayed for the registry of the office in her name. A counter-claim was advanced by Kumarasvami Dikshit on behalf of his minor sons Subraya and Nanjunda, the dohitras of late Gangadhar Dikshit. The Deputy Commissioner ordered that the vacant office should be registered in the name of Subraya the elder of the boys. Against this order Subbamma has appealed to Government. The case was finally heard by Government on the 12th August 1913, the appellant being present in person and also represented by her Advocate.

Order.

The subjoined geneological table exhibits the relationship of the contending parties.



(1) Lingabhat (Registered No. 1)
(2) Daughter Subbamma married Gangadhar Dakshit (Registerd No. 2)
(3) Brother Nanjunda Diksh (Registered No. 3)
Wife Subbamma, claimant.
Lakshmidevamma married Kumaraswami Dikshit.
Subraya
Nanjunda

When Lingabhat died, the office was bestowed on his son-in-law Gangadhar Dikshit, who was not a legal heir to him, and as the latter and his brother were in adverse possession from 1879 to 1911, the claims of all Lingabhat's agnates are barred.

On Gangadhar Dikshit's death, his brother Nanjunda Dikshit got the office with the consent of his brother's widow Parvatamma. The widow's consent would only affect her life interest, but as she died in 1898, Nanjunda Dakshit's possession became adverse to the daughter of Gangadhar Dikshit who had the right to succeed after her step-mother. Neither she nor her sons coming after her, can now claim it.

The post should, therefore, be registered in the name of Subbmma, widow of Nanjunda Dikshit, and a gumasta (approved by Government) appointed on her behalf.

Proceedings of the Government of His Highness the Maharaja of Mysore, Public Works, dated 8th April 1914.

READ—

Letter No. 3829—G. A. I. 772, dated the 10th February 1914, from the Comptroller, Public Works Branch.

No. 604-704—3351-61, DATED BANGALORE, 8TH APRIL 1914.

ORDER THEREON.—A case has occurred in which the final bill for work done by the contractor to a minor tank under the Revenue Department, prepared and paid after the final measurements were taken by the Tank Inspector and checked by the Amildar, had to be revised after re-check by the Public Works subordinate attached to the district, which involved a reduction in the amount of the bill. The difference is due to large variations in the measurements and they are attributed to the unprofessional check of the Amildar.

2. In this connection, the Comptroller, Public Works Branch, points out the necessity for framing some definite rules which would prevent the recurrence of such discrepancies in future, as it may not be possible to make the necessary adjustments after the bill is once paid, especially in the case of final bills. It has therefore become necessary to lay down, pending the reorganisation of the Marahmat Department as per new scheme now under consideration, that all intermediate bills should be prepared after the measurements are checked by the Amildars and the final bills only after the re-check of measurements by the Public Works subordinate attached to the district.

3. The procedure now laid down should not, however, be allowed to be made an excuse for deferring preparation and payment of bills. No inconvenience should be caused to contractors nor should the closing of accounts of works be delayed on this account. The Deputy Commissioner should arrange to have a particular check in this matter.

4. In the case of works entrusted to piece or task workers and not to regular contractors, where the claim on each bill has to be considered separately and discharged in full, the adjustment on final bills of any over-payments made on intermediate bills is impossible, and it is therefore necessary that the Tank Inspectors and Amildars, who take measurements and pass the claims, should be more careful. If any over-payment is discovered in cases of this description, they will be held responsible for making good to Government the loss resulting from their indifferent work.

(1) Note dated the 11th August 1911 by the Chief Engineer of Mysore on "The Future of the Marikanave Reservoir Project."

(2) Note dated the 11th September 1912 by the Secretary to Government, Public Works Department, submitting detailed proposals for introducing the Block System of Irrigation under the Reservoir, with a summary of his recommendations requiring sanction.

(3) Government Order No. 1608-12—9875-9, dated the 5th December 1912, sanctioning the recommendations.

(4) Public Works Secretary's Note dated the 11th August 1913, submitting final statements and proposals for sanction.

No. 707-11—3364-68, DATED BANGALORE, 9TH APRIL 1914.

ORDER THEREON.—Government, in their Proceedings No. 1608-12 -9875-9, dated the 5th December 1912, sanctioned the introduction of the Block System of Irrigation for six years with effect from the 1st July 1913, under the Reservoir.

2. In the interval between the submission of the proposals last year and the completion of the detailed plans and statements necessary to start the work, as ordered by Government in paragraph 9 of Government Order dated the 5th December 1912, it is reported that several changes have taken place in the holdings due to transfers, partitions and relinquishments. Owing to these causes, revised and up-to-date lists, statements and plans had to be prepared to represent the actual conditions at the end of June 1913.

3. The Chief Engineer, with the last of the references quoted in the preamble, has now submitted complete plans and statements in connection with the scheme and requests formal sanction to the detailed proposals.

It is noted that the lands owned by the two concessionaries, Mr. Aminulla Saheb of Dharapuram and the South Indian Industrials, measuring 1,344 and 4,324 acres respectively, have not been included under the Block System as they were held under special conditions from Government.

Also the lands of two Jodi villages, Alur and Kasavanahalli, measuring 504 acres, have been excluded as the Jodidars would not agree to the conditions of the Block System.

4. *Financial prospects.*—The total area commanded by the existing channels below the Marikanave Reservoir is as noted below :—

	Acres
Right bank channel	11,512
Left do	12,419
High level channel	880

Of this, only 10,648 acres and 29 guntas are at present assessed at wet rates and yield a revenue of Rs. 49,838 including the Local and Irrigation cess, and Rs. 44,300 excluding the cess items. The sources from which this revenue is at present derived are as follows :—

	Acres	Revenue Rs.
(1) South Indian Industrials ...	4,324	20,985
(2) Mr. Aminulla Saheb ...	1,344	6,574
(3) Raiyats' holdings ...	4,980	16,741
Total ...		44,300

By the introduction of the Block System as now proposed, the area that will be included under the system is reported to be as under :—

	Acres
(1) Below right bank channel ...	2,827
(2) „ left do	3,869
(3) „ high level channel	763
	7,459

Public Works, dated 9th April 1914.

Of this extent, 6,682 acres are comprised of private holdings and 777 acres represent Government assessed Banjar land.

The revenue anticipated after the complete development of the scheme and on the supposition that the concession lands are not relinquished but continue to pay the stipulated assessment is stated to amount to Rs. 60,970 as under:—

	Acres	Revenue Rs.
(1) South Indian Industrials ...	4,324	20,985
(2) Mr. Aminulla Saheb ...	1,344	6,575
(3) Raiyats' holdings ...	6,682	33,410
Total ...		60,970

If, on the other hand, the concession lands are surrendered and brought under Block System and the Jodidars also agree to the same, the anticipated realisations will be as detailed below:—

	Rs.
1. On 4,960 acres already under wet cultivation... ...	24,900
2. On 1,702 acres to be irrigated	8,510
3. On 2,000 acres of prospective wet cultivation after surrender of concession lands and consent of Jodidars ...	10,000
Total ...	43,410

When the 777 acres of Banjar lands are also taken up, there will be a further addition to the revenue of Rs. 4,000. In all, a revenue of Rs. 47,000 may be expected when the system is fully developed. No serious interference with the existing revenue need therefore be apprehended while considerable improvement may be expected in the health of the locality by the prevention of Malaria and in the value of the land by arresting salt efflorescence.

5. After a full consideration of all the circumstances of the case, Government are pleased to convey their approval to—

(1) The block plans and block lists submitted with the Public Works Secretary's Note,
(2) The demand statement of water rate to be collected from each village, and
(3) The detailed lists of blocks being notified in the Gazette.

6. The Chief Engineer is requested to expedite the submission of a set of rules for the management of irrigation below the channels.

7. A detailed scheme for the colonisation of the tract, embodying proposals as regards the facilities to be afforded for the early development of the tract and the expansion of cultivation in the locality, should also be drawn up in consultation with the Revenue Commissioner and the Survey Superintendent and submitted for the orders of Government at an early date.

Government Proceedings (Public Works) No. 1597-1600—9557-60, dated the 13th November 1913, according sanction to the constitution of an Irrigation Division, tentatively for three years, at an annual outlay of Rs. 30,000, and calling for detailed proposals in the matter of the formation of the Division.

READ—

Note dated the 30th December 1913 by the Secretary to the Government of Mysore, Public Works Department, submitting detailed proposals called for by Government.

Government, in their Proceedings No. 1597-1600—9557-60, dated the 13th November 1913, sanctioned the constitution of an Irrigation Division tentatively for three years, at an annual outlay of Rs. 30,000, and, in paragraph 3 thereof, have called for the submission of detailed proposals as regards the establishment and work of this Division.

2. *Scope of the Division.*—The formation of the new Division is required for experimental and initiative works as regards some special branches of irrigation in the State with a view to collect scientific data for the proper design of works and to introduce new methods of regulation and distribution of water, as detailed in paragraph 45 of the Chief Engineer's Note dated the 8th October 1912. After the new methods of work will have been determined and compilation of necessary data and information effected, administration and management according to those methods can be left to the existing agencies. The object is not certainly to relieve the District Engineers of all ordinary irrigation work, but to undertake new and special kind of work for developing irrigation in the State.

3. *Headquarters of the Division.*—Its headquarters will be at Bangalore which is central for supervision of work in the districts and will afford facilities for instructions from superior officers and easy access to records, registers and information.

4. *Staff.*—The establishment required for the Division is shown in the accompanying statement. The office establishment proposed corresponds with what is allowed for a second class Division. The cost of the Divisional establishment is estimated at Rs. 1,258.

5. *Duties.*—The following duties will be assigned to the Division:—

(1) Preparation of the necessary cultivation plans and collection of the statistical information in connection with the development of sugarcane cultivation below the Kannambadi Reservoir.

(2) The management and control of irrigation below selected tanks and channels with a view to its general introduction later on.

(3) The control of the gauging operations at a few selected rivers, canals and tanks, and the collection of hydraulic facts and data after systematic experiment and observation.

(4) The completion of the tank registers and maps already compiled by the late Special Duty Executive Engineer.

(5) The development of the Block System of Irrigation below the Marikanave Reservoir.

6. For work under item (1), it is proposed to appoint one Assistant Engineer, one Upper Subordinate and half a dozen Sub-Overseers at a monthly cost of Rs. 780.

The charges will be debited to the new Irrigation Division, but the work will be done under the supervision of the Superintending Engineer, Cauvery Reservoir Works, as the question of the development and expansion of sugarcane cultivation in the valley is really a matter for that officer to take up and as better supervision can be exercised by him on the spot.

The establishment needed for the regulation of water distribution and for gauging operations under items (2) and (3) may be employed and their pay debited to the estimates to be sanctioned for the respective works out of the provision of half a lakh set apart for experimental work. The operations will be directed by the Executive Engineer of the new Division.

For work under item (4), one Assistant Engineer, two Sub-Overseers, three clerks and one Draftsman are proposed at a monthly cost of Rs. 600. This establishment will be needed for about a year and after that, the same can be drafted on for supervision of work under items (2) and (3).

For item (5), the full complement of establishment required has been sanctioned. The Marikanave Range will simply have to be transferred and attached to the new Irrigation Division.

Proceedings of the Government of His Highness the Maharaja of Mysore,

7. The total annual cost is estimated to amount to Rs. 32,000, but the whole of the establishment will not be employed all at once but a beginning will be made with a small clerical staff and the establishment required for the completion of tank plans and registers and the development of sugarcane cultivation. The expenditure will be kept well within the limit of Rs. 30,000 sanctioned for the Division.

8.

9. The requisite clerical and Lower Subordinate staff will be appointed by this office and the appointments communicated to the Comptroller.

The favour of sanction is solicited to :—

(1) the constitution of the new Irrigation Division from 15th January 1914, and

(2) the appointment of Assistant Engineer Mr. S. A. Ramaswamier, as Officiating Executive Engineer.

No. 784-822—3762-3800, DATED BANGALORE, 20TH APRIL 1914.

ORDER THEREON.—In connection with the irrigation improvements in Mysore, the proposal to constitute an Irrigation Division was sanctioned in the Government Proceedings quoted above. It was also ordered at the time that the establishment required for the Division should be worked out in detail and its scope defined. In his note dated the 30th December 1913, the Secretary to Government, Public Works Department, has defined the scope of the Division and the duties of the officers to be posted thereto. The establishment required is estimated to cost Rs. 32,000 in round figures, as per statement appended.

2. The proposals to which Government have now been pleased to accord their sanction are :—

(1) the formation of an Irrigation Division with its headquarters at Bangalore,

(2) the appointment of Mr. S. A. Ramaswamier, B.E., Assistant Engineer, as Officiating Executive Engineer, for charge of the Division, and

(3) the entertainment of the requisite establishment at a cost of Rs. 2,638 per month.

3. The new Irrigation Division will be formed in the beginning of the next official year and the scale of establishment sanctioned may be gradually worked up to.

3. Note No. 154, dated 15th—17th November 1913, from the Secretary for Railways submitting proposals for compensating the District Board for the loss due to the working of such a small line independently.

No. 1248-53—Ry. F. 59-13-14, DATED BANGALORE, 6TH APRIL 1914.

ORDER THEREON.—Under the Government Order read above, Government guarantee the payment of interest at 4% to the debenture holders in the Bowringpet-Kolar Railway subject to any amount advanced for the purpose being refunded by the District Board, but the entire financial responsibility of the scheme rests with the District Board who are also entitled to all the profits in which Government do not share. The subsequent resolution of the District Board is at variance with this and if acted upon would relieve the Board of all responsibility in case of loss, while entitling them to a share in the profits when there are any. These proposals do not therefore commend themselves to Government.

2. But in consideration of the probable loss to the District Board due to the working of the line by State Agency as an independent undertaking, Government are pleased to direct that the maximum amount to be charged to the District Board in any year for working the line shall be the same percentage on the gross earnings thereof, as the working expenses of the Mysore State Railways during the year bear to their gross earnings. In any year during which the actual working expenses of the line exceed this maximum, an amount equal to the difference between the two shall be paid by Government to the District Board as a rebate.

3. This concession will remain in force until the completion of the half year in which the extension between Kolar and Chikballapur shall have been opened for passenger traffic for 12 months or up to 30th June 1917 whichever is earlier. The matter will then be reconsidered if Government consider it necessary.

4. The draft agreement to be entered into with the District Board for the construction and working of the line should be so modified as to include the above condition.
